Presidents Message

I want to thank **Bernie NJ6W** for his many years of making the coffee and getting the donuts for the meetings, and **David KG6WIR** for helping in making the coffee and picking up the refreshments for monthly meetings. I want welcome **Noah N6TW** who has started this very important task in support of LARK. This effort is appreciated by all who attend.

I wanted to let you know that the Events Chairperson (me) is following the upcoming events for 2024, and I have an update:

The following events will be happening: **Cinderella Bike Ride on Saturday, April 13th** and the **Devil Mountain Run on Sunday, May 19th**

We are in need of volunteer radio support for all events and any level of experience is welcome.

There is one more event that LARK does not sponsor but we do help with support and that is the **Berkeley Hills Road Race on Saturday, April 27th**, contact **Mark Walsh** directly to volunteer.

As more events are confirmed you will be kept advised. Make sure to sign up on the LARK website for these events for which LARK supports.

I wanted to thank **Ron AD6KV** and **VE Team** for continuing to provide a way for hams to get their testing completed.

The yearly LARK elections will be held at the April LARK meeting. If you are interested in serving as an officer or board member please let me know ASAP.

Ian W6TCP continues to work on enhancing the repeaters for use by all of us so please report any issues to Ian by email.

I encourage you to check in with the LARK Monday, Wednesday (10.10 Windfarms Net), and Thursday night nets, held every week. There are other nets available, and they can be found on the LARK website. It is good experience getting on the air. I want to thank **Ed Diemer AE6D** for coordinating the weekly nets. By participating in the nets, you'll hear what is going on in our Ham community

We are meeting In-Person at the Livermore City Meeting Hall each month on third Saturday, and we are also offering the meeting on Zoom for those who prefer that way to attend. Wishing you all stay healthy and stay safe.

George KG6GEM (kg6wui1@comcast.net)

Notes from the Editor

With your support, LARK has completed two public service community activities in 2024 so far. Please see the LARK website for additional activities you can participate and help support the community.

April 27th is International Marconi Day. What is this? You listen to it on your way to work, during your

Uber ride, and even on your mobile phone. Today we are talking about the radio and its inventor, Guglielmo Marconi. This invention laid the foundation for wireless communication as we know it today.

An inventor's holiday, International Marconi Day, is observed annually on the Saturday closest to April 25th. This is the birth date of Marconi, the inventor of the radio. [Click for more information.](#)

A new [LARK morserino](#) subgroup has been created. If you are interested in the morserino check it out. Further build information will be posted in that group. Thanks to [Noah N6TW](#) for getting the club order together and ordering.

Reminder there is a Wednesday Net for the Hamshack Hotline (HH). LARK HH directory and other information is available in [LARK HH](#) subgroup.

Thanks to [Gary NA6O](#) for his March club meeting presentation, "Antennas for Dummies".

LARK Elections

2024 Nominations for LARK Officers/ Board Members

Position	Name	Call Sign
President	George Moorehead	KG6GEM
Vice President	Chris Quirk	W6CJQ
Secretary	Ryan Mahoney	W6RAM
Treasure	Peter Bedrossian	AI6RG
Activities	Jerry Benterou	N5KA
Board Members		
PP	Roger Deming	KK6RD
	David Counts	KG6WIR
	Nate Moore	N8MOR

If you have interest in serving as an officer or board member please contact [George Moorehead \(kg6wiu1@comcast.net\)](mailto:kg6wiu1@comcast.net)

Monthly Meeting Minutes

LARK General Meeting | March 16, 2024 | Minutes

Call to Order

1. Meeting called to order by George KG6GEM at 9:32am.
2. George started introductions, first of In-Person attendees and then Zoom attendees.
3. 44 in person / 19 Zoom = 63 Total attending the meeting.

Presentation

1. George KG6GEM introduced Gary Johnson N6AO for his presentation "Antennas for Beginners"

Treasure's Report - Bernie NJ6W

1. Badges are printed and available
2. Finances are good but need people to renew their membership

Events - George KG6GEM

1. Cinderella Bike Ride on April 13th still need more people to volunteer
2. Devil Mountain Run on May 19th
3. All signups are on the LARK website

Old Business

1. Minutes from the January and February meetings approved unanimously.

Newsletter - Greg KN6RUQ

1. Will be ready to publish it soon
2. George thanked Greg for stepping up to be the newsletter editor

V/E Testing - George KG6GEM

1. If you need to or want to test contact Ron AD6KV

LARK 2024 Elections - George KG6GEM

1. Annual club elections will be during the April meeting
2. Currently we have a slate of officers, if you are interested in a position contact George KG6GEM by email at: kg6wui1@comcast.net

Morserino Project - Noah N6TW

1. Bulk order of 27 keyers have arrived and are ready for pickup - see Noah to pay for and pickup your keyer
2. 7 remain to be picked up and 3D printed cases are available
3. There will be a get-together for assistance to build the kits, location still to be determined.
4. Ian W6TCP has setup a mailing/io groups list for the project

Coffee Maker - George KG6GEM

1. Thank you for Noah N6TW for stepping up to organize donuts and coffee

Adjournment

1. George KG6GEM adjourned the meeting at 11:42 AM

Minutes submitted by:

Ryan Mahoney (W6RAM) - LARK Secretary

Board Meeting Minutes

LARK Board Meeting | March 11, 2024 | Minutes

Attendees: George, Chris, Ryan, Nate, Roger, Jerry

Absent: David, Bernie

Call to Order

1. Meeting called to order by George at 7:36 PM.

Treasurer's Report - George

1. The club's finances are solid.

Repeaters - Nate

1. Nothing to report

Activities - Jerry

1. Antennas for Dummies NA6O in March
2. Tentative have Ryan and Chris on DMR in April
3. Field Trip to visit Pt. Reyes Maritime Historical Radio in May/June

Events - George

1. April 13th Cinderella Bicycle Classic still 15-20 volunteers short.
2. May 19th Devil Mountain Run in Danville
3. Looking for someone to lead SWAP meet at Pacificon in October 2024

Membership - George

1. Julian would like to send out a created flyer to new hams that have passed their exam
2. He will present the flyer to the board for approval

501c3 Status - George

1. Need to move forward with 501c3 process with new treasurer. George has a email record from Bernie of why the first application was denied.

2024 LARK Elections - George

1. Peter volunteered to become treasurer to take Bernie's spot
2. Bernie will help him in the transition process
3. As of now there is no one else looking to step up in a position. If interested email George as soon as possible for April meeting election

Membership Roster Access - George

1. Requests have come in to gain a copy of the membership roster
2. History has been not to issue rosters due to security
3. The board decided to maintain the current status of protecting the membership roster

Morse Code/ Special Projects Funding - George

1. Distribution of the units will occur at the March meeting

Board Meeting Minutes Continued

2. If people don't pick them up, they will be contacted

Coffee/Donuts for Meetings - Nate

1. Noah N6TW will be handling this going forward. The Board extends their thanks to Noah for taking on this role.
2. Noah will need to receive building card access for future meetings to setup

Adjournment

1. George adjourned the meeting at 8:12 PM.

Minutes submitted by:

Ryan Mahoney (W6RAM)- LARK Secretary

Community Activities

We NEED You!
Sign Up NOW

48th Cinderella Bike Ride - Saturday, April 13, 2024

<https://www.signupgenius.com/go/10C0844AEAD28A6FA7-cinderella1#/>

The Cinderella Classic, Challenge and Short rides are 65/100/35-mile recreational bicycle ride (not a race) for women & girls only.

Berkeley Hills Road Race - Saturday, April 27, 2024

This is not a LARK sponsored event; however, we do provide support if you want to participate. This event provides you with good experience in radio operations.

Event Ham Radio Coordinator is Mark Walsh - mark@km6xu.com

Devil Mountain Run Sunday, May 19, 2024

<https://www.signupgenius.com/go/10C0844AEAD28A6FA7-devil1#/>

This event takes place in downtown Danville and is a foot race - 5K, 10K, and One Mile fun run.

75th Race to the Flag Pole

Event History

On Saturday, 1/27/24, LARK supported the 13th Race to the Flagpole (RttFP). This annual wintertime event started out as a Veteran's Day Weekend event in 2010, but

because of bad air quality in November 2018, it was postponed to 1/26/19. That January date worked out very well, and as a result all RttFPs since then have been on the last Saturday of January (except in 2022 when COVID forced a short delay to the last Saturday of February).

The first two years happened in downtown Livermore, starting and finishing at Carnegie Park between 3rd and 4th Streets. Since then the event has used the Livermore bike trail system and the trails in Sycamore Grove Park, while starting and finishing at Independence Park. In 2023 the event the event was limited to the Livermore bike trail system because of flooding in Sycamore Grove Park.

The now standard format of the event begins and ends near the flag pole at Independence Park and runs through scenic Sycamore Grove Park and on the connecting bike trail. Events include a 5K, a 10K, and a one mile "Fun Run". The RttFP is hosted by the Livermore Granada Boosters Club with proceeds supporting their scholarship fund. Scholarships are awarded to scholar athletes at Livermore High School and Granada High School.

LARK has provided communications for this event since 2011. Five radio amateurs supported the 2011 event, seventeen radio amateurs helped in 2024.

This year's Event

The event was successful; there were no reported injuries - the EMT vehicle remained

parked at Independence Park the entire time. One runner came to the CS-131 with a medical issue and was escorted to the nearby ambulance by one of our NCS staff. It was a nice day after it warmed a bit, much warmer than during the 2023 event!

431 runners/walkers finished this year (104 in the 10K, 250 in the 5K, 77 in the one mile), about 50% more than last year's numbers. The 10K started at 0845, the 5K started at 0900. All the 10K and 5K runners were done by 1049 hours.

Radio Information

The Net Control Station (NCS) operators met in the cold at Independence Park at 0630 hours to set up. Rand, W6TRM, brought the San Ramon Valley Fire Protection District's CS-131 communications van, to be our Net Control Station on wheels. Rand, W6TRM; Ryan, W6RAM; Austin (public safety dispatcher); and Chris (public safety dispatcher) were our NCS radio operators.

John, WB6ETY, set up a portable APRS digipeater (WB6ETY-3, supplied by Arnold, KQ6DI) close to the CS-131. Its antenna was a 10 foot vertical collinear antenna on a 15 foot mast. APRS worked well, with the event APRS log showing

that nearly all packets from the LARK APRS trackers (carried by our sweep and rover Hams) were received at the NCS.

At 0715 hours we all gathered at Independence Park, next to the CS-131. We had a brief meeting to check-in, discuss our plans and assignments, and perform radio checks to ensure we all were accessing our primary repeater, the W6SRR Sunol Ridge repeater (backups were the AD6KV repeater, the WA6ODP repeater and our local simplex frequency). We had time to pick up a cup of coffee and bagel (provided by the Boosters!) before dispersing to our assignments.

John WB6ETY providing briefing to all Hams supporting the event.

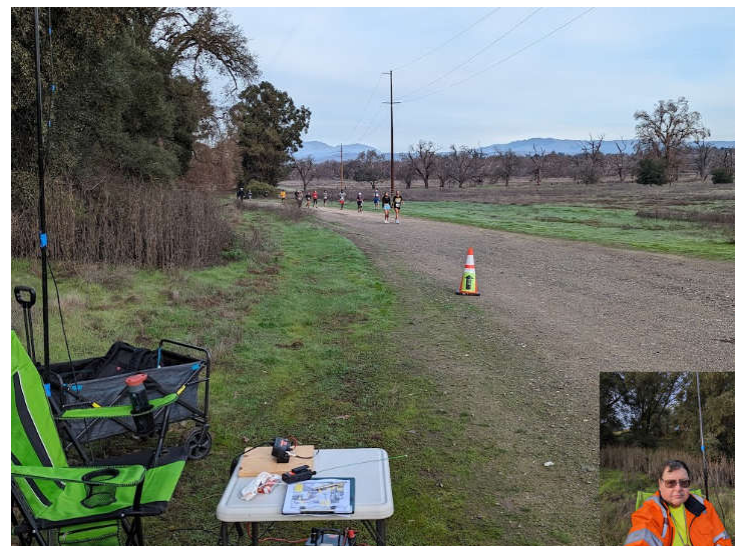

Most assignments were in Livermore's Sycamore Grove Park, so for many of us, that required driving to the park, parking in the parking lot (either on Wetmore Rd or on Arroyo Rd), and then walking to an assignment. The longest walk was about 1.25 miles. The NCS called roll before the first race started, with everyone checking in successfully.

Thanks to these operators for hauling more than an HT to their assignment.

Alan, KM6BRQ set up his 50W portable station / mast / antenna at Station 13A.

Bill, AJ6UU, set up his ~20W portable station/ mast/antenna at Station 8.

**Kole
KO6CES &
Greg
KN6RUQ.
Set up their
10W
portable
station/
mast/
antenna at
Station 12.**

Larry, KI6LNB, was prepared to raise an antenna but his HT/ rubber duck worked well at Station 13.

**David KG6WIR at
Station 11 (picture by
Jerry N5KA)**

**David, K6WOO, set up his portable station/
mast / antenna on his bicycle (and thus was prepared to respond to an incident if needed) at Station 10.**

Thanks to the Sweep and Rover operators (Jerry, N5KA, 10K Sweep Bike; Mark, KK6UKU, 10K Rover Bike; Bill, N6SGT, 5K Sweep 'on foot'; David, K6WOO, 5K Responder Bike) for burning lots more calories than the rest of us. Keeping track of the "last" runner location is important to the NCS and to the race organizers. "Last Runner" locations were also relayed to the public address announcer several times during the morning so the crowd at Independence Park was kept up-to-date.

Thanks to everyone for sending pictures, comments, and suggestions for improvement. There was a common thread to many of the suggestions. I've forwarded several suggestions to the race director for consideration when planning the next RttFP.

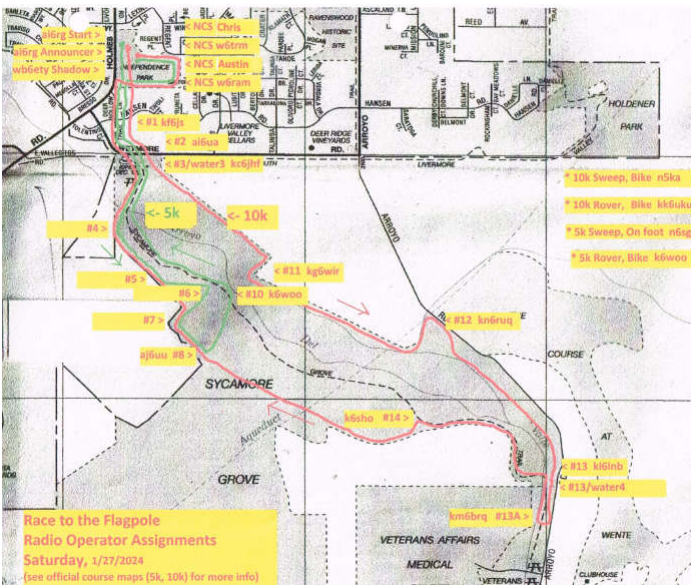

Ideas for 2025

- Define key events that need to be announced on the net for the benefit of all of us and especially for use by the Public Address Announcer at Independence Park.
- Work with the event organizer to reduce instances of runner confusion at several trail intersections. More visible signs and assigning volunteers to a few key locations are possibilities.

Thanks to all the volunteer radio operators who provided this public service to the Livermore Granada Boosters:

Rand W6TRM, Ryan W6RAM, Austin, Chris, Peter AI6RG, John WB6ETY, Tony KF6JS, Kyle AI6UA, Keith KC6JHF, Bill AJ6UU, David K6WOO, David KG6WIR, Greg KN6RUQ, Kole K06CES, Larry KI6LNB, Alan KM6BRQ, Ann K6SHO, Bill N6SGT, Jerry N5KA, and Mark KK6UKU

John Street WB6ETY

Livermore Half Marathon

This event was held on Sunday, March 3rd, 2024, in Livermore.

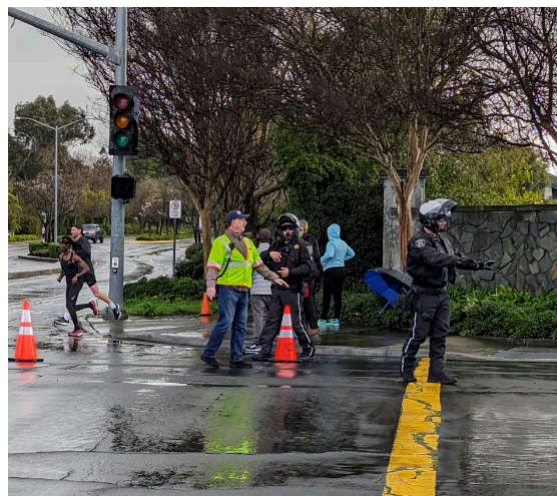

ambulance arrived. They were stationed at College and South L St. and look forward to next year (no emergencies)!

Net Control was located on South J Street between 1st & 2nd Streets in Comm Support 131. The Start/Finish line was not too far away.

The weather was intermittent showers at different locations on the course/route.

The Half Marathon was a race that went from downtown Livermore to Sycamore Park to Holdner Park and back down Concannon Blvd to Arroyo Rd to L Street to return to downtown Livermore.

Volunteer radio operators provided communications (emergency and regular) for the event needs.

Swap n' Shop Cave

This month LARK Swap 'n Shop is looking to get you wired. No, not an overdose of club meeting coffee. Real wire!

Mostly 10, 12, and 14 gauge, fairly long spools. A sample in the photo. Also have lots of coax, literally a green tub full. We round it out with lots of 75 ohm coax, Ethernet cable, audio cable, and a smattering of Anderson power pole connectors and red/black 15 and 30 amp wire.

Almost instant delivery (if you pick it up), and rock bottom prices for LARK members.

Contact Rich at kn6hsr@arrl.net for further details.
